Dürr Group

Carl-Benz-Str. 34
Bietigheim-Bissingen, Baden-Württemberg, 74321

Dear **Dürr Group Recruiting Team**,

I am enthusiastic about applying for the **Graduate Program – Software Engineering & Data Science** at Dürr Group. As I complete my **M.Sc. in Data Science at FAU Erlangen-Nürnberg**, I am eager to bring my technical expertise and passion for innovation into an international and dynamic environment like yours.

Why Dürr, and why me?

- Gained hands-on experience developing **data analytics solutions** at BMW Group, collaborating across departments to translate complex datasets into actionable business insights.
- At CARIAD (Volkswagen Group), I enhanced my skills in **software development, dashboard creation, and CI/CD pipelines**, directly supporting agile teams in delivering robust data products.
- Completed internships and projects that strengthened my **understanding of industrial software systems**, which aligns well with Dürr's focus on Smart Data Analytics and Control Systems.
- Undertaken an international internship and am excited about Dürr's opportunity to work abroad, as I value global exposure and cross-cultural teamwork.
- Developed strong communication and teamwork skills through interdisciplinary collaboration, enabling me to contribute effectively in diverse settings.
- Currently advancing my German language proficiency (completed A2, studying B1) to engage fully within your multilingual teams.

The opportunity to shape my own learning journey through diverse rotations and mentoring at Dürr genuinely excites me. I look forward to contributing to your innovative projects while building a broad professional network within your global trainee community.

Thank you for considering my application. I would be honored to further discuss how my background and enthusiasm align with the goals of Dürr Group.
