TO WHOM IT MAY CONCERN

This letter certifies that Mr. Morris Darren Babu has completed his work student online internship program of 6 Months with Altascio Technologies. His internship tenure was from 01 Feb 2021 to 01 July 2021. He worked with our development team and was actively & diligently involved in the projects and tasks assigned to him.

I found Morris Darren Babu to be a mature, sincere, diligent, and focused intern with exceptional clarity of career objectives – especially for someone as young as him. As his internship supervisor, I received excellent feedback from the heads of all departments he had worked with.

Though he is still a graduate student, he showed an excellent understanding of Python programming, database structures, and machine learning. I found his understanding of various aspects of recommendation systems, OCR, pattern recognition, and customer sentiment analysis above the average aptitude level expected of high school students.

Morris Darren Babu enjoyed a great rapport with all the personnel he interacted with. He has excellent communication skills, and a great work ethic, and his commitment and the quality of tasks allocated to his behavior were above board.

I see endless potential for Morris Darren Babu and hope he works towards realizing the same. I would not hesitate to recruit him as a full-time employee in our organization upon his graduation – should he be interested in joining us.

I fully endorse his internship and his work with us, and his decision to pursue a career in Computer Science. I would also like to recommend that he be accorded an opportunity to work as an assistant to your faculty members since this will not only enhance his learning curve but provide exposure critical to realizing his immense potential.

Sincerely,

Joe Austin
Founder & CEO
Altascio Technologies Inc.
